

Rewriting Alcohol Scripts Worksheet

1. Original Script

Write one alcohol script you've noticed:

2. Reality Check

What evidence supports this thought?

What evidence does **not** support it?

3. Cost vs. Benefit

Short-term effect of following this script:

Longer-term consequences:

4. Rewrite the Script

Create a new, more helpful thought (e.g., *I can enjoy this without drinking, I don't have to do what others are doing, I care more about how I feel tomorrow*).

5. Make it Actionable

When the old script shows up, I will:

1. Notice it.
2. Say my new script.
3. Do this action: _____

6. Mental Rehearsal

Imagine yourself in the situation:

What happens first? _____

What do you say to yourself? _____

What do you do differently? _____
