

Emergency Plan Worksheet

1. Personal Emergency Plan

If I encounter a life event that puts me in a high-risk situation:

1. I will leave or change the situation or environment.
2. I will put off the decision to drink for **15 minutes**. I will remember that most cravings are time-limited and I can wait it out.
3. I will challenge my thoughts about drinking (*Do I really need a drink? My only true needs are air, water, food, and shelter.*).
4. I will think of something unrelated to drinking.
5. I will remind myself of my successes to this point.

2. Emergency Contact List

Name		Phone Number
1		
2		
3		
4		
5		
6		

Remember: Riding out this crisis will strengthen your recovery.
